EDUCATION

Babu Banarasi Das Northern India Institute of Technology September 2020 – June 2024
Bachelor of Technology (Computer Science and Engineering) *Lucknow*
Christ Church College Year of Passing: 2020
ICSE (Class X): 72%, ISC (Class XII): 77% *Lucknow*

EXPERIENCE

Software Developer March 2026 – Present
WebSultanate Software Technologies Pvt. Ltd. *Lucknow*

- Engineered scalable backend services with Python FastAPI and Node.js, enabling efficient data processing and low-latency communication between distributed application components.
- Built core gaming and wallet infrastructure covering game management, user balances, deposits, withdrawals, and transaction lifecycles with secure state management and reliable financial workflows.
- Designed and optimized relational and NoSQL data layers using PostgreSQL and MongoDB, with efficient queries and data models for scalability and integrity.
- Implemented application security measures including input validation, API rate limiting, secure session handling, and authentication controls.

Software Engineer June 2024 – March 2026
Arivani Technologies Pvt. Ltd. *Lucknow*

- Built full-stack web and cross-platform mobile applications using the MERN stack and React Native, with seamless RESTful API integrations.
- Implemented secure authentication systems with JWT, including email verification, password hashing, and role-based access control (RBAC).
- Developed real-time chatbot apps using Socket.IO and NLP, enabling dynamic two-way communication with AI-driven responses.

MERN Stack Developer Intern July 2023 – September 2023
Digipodium *Lucknow*

- Developed a dynamic, responsive portfolio website with reusable UI components and layouts consistent across desktop, tablet, and mobile.
- Ensured a seamless user experience by implementing intuitive interfaces and optimized frontend performance.

PROJECTS

Nek Rishta (Matrimonial & Matchmaking Platform) Next.js, Node.js, Express, MongoDB, JWT

- Privacy-focused matrimonial platform with verified profiles, matchmaking, and subscriptions; built frontend and backend features with JWT authentication, rate-limited APIs, and profile verification. Website: https://nekrishta.com/

4Tune (Case Opening & Case Battles Platform) Next.js, Node.js, PostgreSQL, Socket.IO

- Case opening and live case battles platform with published odds, instant sell-back, and a user vault; worked on user flows, secure authentication, balance handling, and real-time battle updates with scalable backend architecture. Website: https://4tune.world

IARIV - Virtual Tours (3D Visualization & VR) Next.js, Three.js, Node.js, MongoDB

- AI-powered virtual tour platform for creating and sharing interactive 360° experiences; contributed to tour management, 3D rendering, and navigation across frontend and backend. Website: https://iariv.com/

NLP Verse (AI Powered NLP Chatbot) October 2024

- MERN and Next.js chatbot platform using node-nlp to train custom Q&A pairs and handle input variations, with real-time chat via Socket.IO. Website: https://nlp-verse.vercel.app

Esports Arena (Web & Mobile App) July 2024

- Esports platform for tournament discovery, registration, and event management built with React, Node.js, Express, and MongoDB. Website: https://esports-arena.vercel.app

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Java, Python, Git, SQL
Frameworks: React.js, Next.js, Node.js, Express, FastAPI, Tailwind CSS, Material UI, Bootstrap, React Native
Tools: MongoDB, PostgreSQL, Socket.IO, JWT, REST APIs, Postman, Three.js
AI Tools: Claude, OpenAI Codex, AI-assisted development and prompt engineering
